

The Complete Site Maintenance Solution

Custom-built, robust cases containing all the parts required for any overhaul.

MAN Diesel & Turbo UK Ltd. maintenance kits reduce storage and maintenance costs by: freeing warehouse space, improving manpower utilization during shutdowns, and transferring responsibility for quality control onto MAN Diesel & Turbo UK Ltd.

Not limited to any specific equipment, this unique service is a simple cost saving solution to most of the problems encountered during routine or major shutdowns of both MDT and third party equipment.

Features	Benefits
One set of boxes containing all possible parts required for any overhaul.	Reduces stockholding, processing and admin costs.
Robust, custom designed transit and storage cases.	Minimizes risk of damaged parts delaying critical maintenance shutdowns.
Expert after-use inspection.	Returning used kit for replacement or refurbishment, ensures cost-efficiency and maintains reliability.
Kit list tailored to your requirements.	You only pay for the parts you use.
Pre-compilation inventory and inspection service.	By utilizing your existing stock the setting up of maintenance kits is efficient and inexpensive.
Genuine OEM parts.	Confidence in OEM parts warranty.

Custom Designed Maintenance Kit Boxes

Cases to suit all site conditions, onshore or offshore.
